INSPECTORS HAVE

### Facts and Fancies

By Frank Fairborn, Jr.

A FIELD DAY Chief Inspector Harry Ponton, Dominion Fruit Division and some of his inspectors had a field day last week, particularly on Thursday and Friday night. They also gave Hamilton market a severe going over two or three times and plenty of fruit was condemned or placed in detention.

Truckers were their big job on Thursday and Friday evenings, when using the highway scales as a stopping point they went through a great many loads. Cleared some, condemned some and placed others in detention. This thorough inspection of truckers outfits was a regular thing in pre-war days, but with the depleted staff at his command the past three years Mr. Ponton was unable to handle the situation properly, much as he so desired.

All told about 25,000 baskets of peaches, besides, tomatoes and grapes were inspected and allocated to their proper channels. This entailed a lot of work and could not be continued for the balance of the season owing to the shortage of staff.

From my viewpoint I do not believe that the law of the land should be too harsh on the truckers for transporting the type of rubbish that has been placed in containers this season, any more than the law should be just as harsh on the railway and express companies. None of the three modes of transportation are to blame for what is in the containers. That is the fruit growers fault. He is the man who picked and packed the green, immature, worm-infected, diseaseinfested fruit and sold it. Not the trucker or the railwayman.

The minority growers throughout this disrict, who have been the direct cause of all the hub-bub of complaints all over Ontario, have been riding for a fall for the past three years. Now he is going to be toppled. There is not much doubt that Dominion laws covering the picking, packing and shipping of fruit will be greatly strengthened before another fruit season rolls around. Then the good, honest grower will get his just reward and the crook grower will get his earned deserts.

I also believe that the Ontario Department of Agriculture will step into the picture this winter and put some laws on the books that will wake the crooked grower up, and will be acclaimed by the honest grower. would like to see legislation passed that the injustice!

would make central packing compulsary. Then the properly picked, graded and pacced fruit would go out to the public and it would make no difference whether the leno cover- Change The Clock ing was red, White or black. The good gods would be in the container.

If the Hon. Tom Kennedy, in his positon end in Canada on Sunday morning as Minister of Agriculture in the Ontrio at 2 a.m. which is not going to government, wants to protect and de elop hurt the feelings of anybody, partthe great fruit industry of this district, he icularly the housewife with kids will have such legislation passed and byso going to school. doing will save the industry and protect he If you do not want to be too buying public.

This is my final word on the peach sub-climb into bed on Saturday night. ject. I believe I have done a good deed for the whole Niagara district, but there is one thing certain, and that is that I am going to do a lot of fighting between now and next strawberry time to have the Dominion laws strengthened and new legislation passed by the Ontario Government.

Outside of central packing I am gong to do my gosh-dangest to have flying patrols of inspectors working over the highways checking fruit stands, truckers and farmrs right from strawberry time until the spwballs arrive, even if it takes 500 men todo the job. It would be the greatest money ver spent both from the industry's standport and the standpoint of the buying public.

#### BRIBERY AND CORRUPTION

(Peterborough Examiner)

Since the beginning of the peach season many newspapers have complained about the quality of the fruit which is being offered to the public as the finest quality.

No papers have been louder in their condemnation of this sort of cheating than the two Ottawa dailies. And yet-O tempora, O mores-both have confessed that they have now received baskets of luscious fruit from somebody in Grimsby, who is interested in the fruit industry of that town, and their wrath has been notably appeased!

This is the sort of thing which turns the hearts of provincial newspapermen to gall in fruit and praising the wily Phoenicians of identify themselves, peaches which look and taste like cricket- of Oak and Elm street balls. It's not the fruit we care about; it's now a double house

#### FACTS & FANCIES Frank Fairborn, Jr.

TOD DALEY GOES OVERSEAS

It was with the greatest gratification that I read last week in the daily press that Ontario's Labor Minister, Charles Tod Daley

of Lincoln leaving this week for Paris, to rethe present Greatest Province in the Dominion of Canada, at the International Labor Conference to be held in this Parisian City at the beginning of October.

am particularly pleased over this appointment by Premier Geo. Drew, because if there is anything in the world that a

Newspaperman hates it is the fact that he picked a loser. "Little Dyke" and I put a lot of thought on the last provincial election. We believed that Ontario needed George Drew. We also believed that George Drew needed Tod Daley. We believed that the people of Lincoln county needed Tod Daley. We worked and acted accordingly. I do not believe that any one in Grimsby has a regret that they went to the polls and voted for Tod Daley. I certainly have no regrets.

Tod Daley came from behind a grocery counter, just the same as many a smart man came from between the plow handles or out of a print shop. Tod Daley has brains in his head and a feeling in his heart for somebody else beside Tod Daley.

Tod Daley will be a worthy representative in Paris of the Greatest County, of the Greatest Province, of the Great Dominion of Canada.

#### SMALL TOWN

I like to live in small towns where the folks don't gouge and shove Where one may take time off to live and

dream and laugh and love. I like the peace and comfort and the sweet security

Of friends that I can lean on and that can lean on me.

Here neighbor talks with neighbor across the back-yard fence

Of Hilda's new "slick" city beau, of ernment expense,

Of Mary Jane's scant swimming suit, of Aunt Sue's last prize quilt, Of the big party Sally Lou gave for her

cousin, Milt, Of bugging the potato crop, of the high

Price of eggs, Of White's goat eating Higgins'-clothes, of

buying pickle kegs, Of Widow Brown's fawn Jersey cow that reached through Smith a back door. And spilled a pan of peach preserve upon

the kitchen floor. I love the crimson sunsets and the shadows

stretching far, The western sky's slow paling, the birth of the first star,

ning hills about, When the village draws its curtains and shuts the mad world out;

The dusky distance closing in, the dark'-

I love the nights of peaceful rest, the cool breath of the dawn; I envy none the fame and spoils of the big

restless town. C. R. Spencer, in Christian Science Monitor

Spend five minutes every day thinking of some good you can do someone . . . then do

HERE'S WHERE YOUR TAXES ARE GOING

Last week I told you that Grimsby ratepayers were faced with an expenditure in the next two years of \$125,000 to \$175,000, on debenture issue of course. I gave you some reasons for the expenditure. Now I am going to give you some more reasons.

It has been a well known fact in municipal circles for the past six years that the sewage disposal plant was not operating efficiently. In fact was too small to handle the amount of material that every 24 hours was run into it. Owing to the war the Ontario Department of Health were very tolerant. Now they have stepped down and in no uncertain words have informed Town Council that the plant must not only be put in proper working condition but enlarged. Naturally it must be enlarged in order to handle all the sewage that will accrue from the new sewer lines that will have to be laid.

The securing by Town Council of the firm of Gore and Storrie, sewage engineers, to make a complete survey of the whole town for sewer purposes is a step in the right direction. At the present time there is only a small portion of the town with sewer connections. Sewers must be provided for the rest of the town. As an example, the Fairview avenue district.

In the past four years, a conservative estimate would place the number of new houses that would have been erected at around 50, but owing to the nature of the soil and the lack of sewers Town Council could not countenance the construction of new homes there. A good many building lots that the town had on tax rolls were sold, but with the distinct understanding that no homes could be constructed until such time as sewers were laid. At the present moment the Town has in various parts of the town approximately 150 building lots. Lots that should have houses on them. But until such time as sewers are put in, it is impossible to have those houses erected.

At the time that sewers go in, water mains have to go in. Sewers and water mains cost money. That also brings us back to the reservoir question again. Also enlargements at the pump house at the lake. It all means money, but if Grimsby is going to grow and continue to be the dominating town of Lincoln county, that money must be spent.

Figures are the most deceiving thing in the world. You look at a string of numerals with a dollar sign in front of it and you immediately jump to the conclusion that you are going bankrupt. As a matter of fact you are only spending money to increase the valuation of what you have already invested, and the little increase that will occur in your taxes will never be noticed.

I am ready to gamble all the bum peaches that have been shipped out of the Grimsby district in the past six weeks, and that is a lot of them, that the minute that restrictions are taken off of building materials and Shafer Bros. and the other contracting firms in Grimsby can secure labor, that over 300 homes will be erected in Grimsby within a two year period, but only if sewers and water mains are made available.

Now then just sit down and figure out the difference in the town assessment between 300 vacant lots and the same 300 lots with homes on them that cost anywhere from \$3,500 to \$10,000 to erect. The vacant lot is assessed, if privately owned, for about \$100. If owned by the town for nothing. The same lot with a new house on it will be assessed for anywheres from \$1,500 to \$6,000. That folks is where the big bulk of the money will come from to keep your tax rate down around the 30 mill mark, after the first one or two years. It will still be the lowest in Canada for a town that is as big and as great as Grimsby is.

Next week I am going to tell you about a few other expenditures that will have to be made. But all on the same line. Spend it today and get it back two years from now. You cannot grow and prosper if you do not spend money, judiciously of course. Grimsby cannot be held back. It must go ahead. It must prosper. It's people must prosper. But to do it we must spend money: In the end we will be a thousand-fold better off.

Remember—GREATER GRIMSBY.

#### HOLD YOUR BONDS

The man who sells a previously purchased victory bond merely to raise the money to buy one in the coming loan is contributing nothing to the national effort. Neither is the bond salesman who advocates such a course.

Someone or some financial institution must take the old bond off his hands and therefore no new money comes to the help of the country. Quotas raised by these means are hollow and expensive victories.

The object of this new loan, and all those preceding it, is twofold, first to raise new money to finance the war effort, second to drain off surplus purchasing power to prevent inflationary price competition for scarce foods. Once the direct bills of the war are paid and consumer goods are again available in normal volume, we can begin to reverse the process. Bonds can be converted into money and money into goods.

In the meantime the important thing

Have A Heart

for the average individual is to plan to buy bonds out of current savings. This time the load must bear largely on the small investor because the big companies and financial institutions, which were major subscribers to previous loans, now face the immediate task of converting industry from war to peace. Hundreds of millions of dollars must be spent on new plant equipment, and supplies so that civilian jobs can be opened quickly and a flow of civilian goods started.

#### STRIKES WILL HINDER RECONVERSION

labor. They are:

(By Thomas E. Flynn, Assistant Editor, The International Teamster, official magazine of The Teamsters' International Union A.F. of L., in its September issue.)

It is legal to strike again. It is also legal to go barefoot. But in either case you may stub your toe.

which I spoke to the Southern Conference of Teamsters in Memphis in November, 1943. We are entering the period of reconversion with our national economy in a very delicate condition. To withstand the shock

of rapid change from the totalitarian econ-

The condition confronts us today of

omy of war to the individualistic economy of peace, we must use our heads. An orgy of strikes will prevent an orderly change. It will cause one of two things, either one of them destructive to organized

1. It will throw the country into a tailspin and create a depression of unprecedented proportions.

2. It will force Congress to enact drastic laws with drastic penalties for strik-

In either case we will go back into the period of rigid government control from which we are just emerging. We will be regimented in the event of serious depression. The government will be forced to take over industry.

And certainly we will be regimented if Congress enacts a code of labor laws which outlaws strikes and repeals the favourable legislation enacted during the administration of President Roosevelt.

I do not mean to say that we should outlaw the strike. But I most emphatically repeat what I told the Southern Conference of Teamsters almost two years ago-that no future strike can succeed which does not have public sympathy.

We will not have public sympathy if we walk around with a chip on our shoulder tying up industry every time some business agent has a bellyache.

We must also realize that five million war veterans will be returning to civil life within the next few months. These men will want to work at good wages to make up for the time they lost in service.

We have preserved their wages for them. Most of them will be grateful to us for that. But we will lose this gratitude if we don't let them work. And how can they work if industry is paralized by strikes?

That will arouse their hostility and we will have created the condition for which many heartless employers have hoped-the conflict between labor and veterans.

The function of a union is to provide

men with work at good wages. It is not the you're building/" function of a union to keep its members in hunger and idleness.

Unions which do that will cease to exist. Either they will be legislated out of existence or their members will quit in disgust and join other unions which will provide them with jobs.

The Teamsters' Union has kept abreast of changing conditions during the last 40 years. It has foreseen changes and has been prepared to meet them intelligently.

We have had bitter strikes in defense of our fundamental rights. We may have them again. But a strike must be in defense of fundamental rights and the issue must be great enough to compensate for the penalty a worker pays in every strike, even if he

A union which leads its members out on strike for a trivial question is false to its trust. It is false to the entire labor movement and is inviting trouble for the rest of labor.

The period of reconversion calls for clear heads and strong characters in labor leadership. We must help the nation through the crisis of peace, just as we helped it through the crisis of war.

FOR A' THAT Scotland's leaders have asked Hugh Dalton, President of the Board of Trade, if he is aware that pearly all tartan material in he is aware that nearly all tartan material in stock in that country, is being reserved for export.

These leaders plan a stiff protest because they claim Scotsmen stand in peril of losing their kilts. Thus Scotsmen who love to parade in kilts, are being compelled to wear pants. Equally hard hit too, they claim, are Scottish children who for ages Business Directory have worn plaid kilts as a form of national

And all because the demand from abroad, and particularly by women in the United States, for the colorful plaid cloth, has caused a great shortage.

But the Scot has one consolation. Even if he has to wear pants instead of a kilt, he is still a man for a' that.

#### THE BATTLE OF PRICES

There is one battle yet to win Before we can sit back and grin; Inflation still is set to go, It wouldn't take much help you know To start a landslide like we had After the other war-when dad Came home all fresh and glowing And tried to get a business going.

He didn't have a chance—they said, With prices soaring overhead, He just was getting under way When bang;-de-flation came one day And he-with thousands hit the deck And half the world was in the wreck A wreck that spelled catastrophe For little folk like you and me.

And now that we have won this war Again will prices try to soar With goods a bit in short supply; We wouldn't even have to try To boost the ceiling on all things, From cabbages to wedding rings, And lose the peace and all beside For which our sons and brothers died.

It's little folk like us who still Can beat Inflation—if we will.

Many a man has found that affections began at the altar.

A guest sometimes keeps one guessing as to when he will leave.

Things are beginning to change. Before long, once again the customer will always be right.

#### Lincoln County's Home For The Blind

This fine, large residence in the heart of St. Catharines was purchased from the city and county last spring to house the unfortunate sightless people of Lincoln, who cannot provide for themselves. It is

an institution that all residents of the county can be justly proud. It costs money to maintain this home. so won't you do your bit on Saturday of this weel when a tag day will be held in Grimsby.

### Lockhart Speaks

(Hansard report of September

IALS FOR CONSTRUCTION OF peaches wer offered for sale. SOLDIERS' HOUSES

On the orders of the day. Mr. NORMAN J. A. M. LOCK-HART, (Lincoln): I have just re ceived a long distance telephon communication, and I have had n opportunity of consulting with th ministers concerned. Perhaps th responsible minister would allow this to stand as notice of a quest ion. It appears that in the finish ing of soldiers' homes, which in good many urban centres are be ing rushed to completion by reaso of the cold weather, there is a tie up through the freezing of plumb ing fixtures, bath-tubs and so or I was informed over long distance an hour ago that there are in th airports in St. Catharines, where come from, hundreds of units this equipment. Will the appro priate minister inquire whether would be possible to release ther directly in order to get these hour es completed rather than hav them sent through the channels the War Assets Corporation, which is a tedious and tiresome proces ure? It is urgent that these house be completed before the co weather sets in. Dozens of house in my locality are in need of th equipment, and I suggest the something be done to expedimatters. The equipment is lyin there, The Nobel plant has been mentioned. I would ask the propriate minister to deal with th

# (By Bones Livingston, Sportologist)

STRIKES AND SPARES-Monday night opened the bowling and arguing season in Grimsby, when the MEN'S BOWLING LEAGUE got under way with 24 teams, divided into two divisions, setting out to see which one will be the winners of the GLEDHILL AND INGLE-HART TROPHY come next April. . . . OLIVER DONALD GORDON SHAW with a great fanfare of cat-wailing led his BLACK CATS to a smart victory over the SOULEVARD when they took four points and rolled up a team score of 3011. BARNEY JOHNSON the big pig and peach man rolled a high 702 for the back fence musicians, and looks like he will win JOHN HEWITT'S two pounds of SLAWSON cheese for this weeks high score. . . . Last years champs, the HEP CATS were not so happy, being trimmed 3-1 by the GAS HOUSE boys from Caistor. RAHN was high scorer for the gassers with . . . . A new team captained by FRED CASE and carrying the jumping-jack name of COUNTER HOPPERS, took three from the FIREMEN. This team on their first appearance look like they will be a tough outfit to beat all down the line. FIREMEN have been strengthened this year and they might put the fire out of a lot of teams ere the snows have melted. . . . WEST END took a slapping down at hands of the PIRATES with Pirate captain CHARLIE NORMAN rolling a 658. That great bowling champion of a half century, who has bowled before all the crowned heads, pin heads and knot-heads of Europe, Asia, Africa and Grassies Corners, LITTLE WHIZZER KAN-MACHER, had a tremendous score of 162 for one game and was relegated to the bench by CAP. NORMAN, . . . Oh yes, ARMANDO COMMANDO HUMMEL rolled an unheard of 318 for one game for the fire eaters . . . Grimsby's own MARVIN "CYCLONE" WENT-WORTH is the champion golfer of the Royal York Club, Toronto . . . Tonight's the night that the PEACH QUEEN'S open their 1945-46 season of pin toppling and hair pulling. Good luck beauties. . . . In group two of the MEN'S BOWLING LEAGUE on Tuesday night WILBERT ZIMMERMAN won the HEWITT cheese with 686, beating out HAM-

The following story from the Famous Fourth Column of J. V. McAree, in The Globe and Mail will be of much interest to residents of this district as Eddie Livingstone, no relation to the editor of The Independent, was well and favourably known in sporting circles in the Fruit Beit. Eddie was the man that first signed that great bunch of old Peach King players, "Pop" McVicar, 'Pud" Reid, Artie Clarke, "Buddy" Fisher, and "Cyclone" Wentworth to professional contracts. Those boys belonged to the first hockey team Chicago ever had. Eddie was never able to snare Jerry Carson, he going direct to the Canadiens.

MY FOX with 653. PIN TWISTERS, NAIL PUNCHERS, GENERALS and BUTCHERS were the high point winners of the evening. . . . REV.

on the LEGION team he is not too hot, neither is the team, judging by

the first night's performance. . . . So long, and be ON TIME for your

It was with a shock that on Saturday, Sept. 15th, we read in Mr. Fitzgerald's sports column in the Telegram of the death of Eddie Livingstone, But we find that we are getting used to such shocks. A man you once knew well drops out of circulation, and one day when you ask where he is you find that he has been in a cemetery for some months. So far as we are concerned, and we suppose it is true of most other men of our generation, there are no longer meeting places where one may expect to see his friends, and where if one is missed interest and concern are immediately felt. The tendency of most of us is to keep narrowing the circle of friends and interests. Eventually it will be concentrated on one-oneself-and then it will cease altogether. Many of us can recall the time when Eddie Livingstone in the world of sport occupied a position comparable to those held today by Conn Smythe and Peter Campbell. Everybody knew him; and those who knew him best liked and respected him most. He was an outstanding figure in hockey, and he also managed some notable football teams. According to Mr. Fitzgerald he was once a keen cricketer, but of this we have no knowledge. We met him first when he was reporter on the old Mail and Empire.

As we recall his appearance it seems to us that he resembled both Woodrow Wilson and Jim Coleman. His was a scholar's face, enhanced by his rimless glasses. In manner he was quiet and courteous, but that long jaw of his gave warning that he was not a man who could be talked out of a purpose; still less could be be bulldozed He was a convivial companion with his friends, but we think of him as a puritan in sport. He was at the peak of his influence at a time when amateurism was verging into professionalism. For a time in Toronto the amateur teams like Livingstone's T.R. & A.A. and St. Michael's outdrew the professionals. People would stand all night in line to buy tickets for some of the historic clashes between these famous amateur teams. Livingstone, no doubt, was paying his players, but we always had an idea that he operated on peanuts, and that he could get amateurs to risk their necks and break their hearts for him just because they liked him, and because he liked them.

On their part the liking was probably founded on respect. Livingstone knew hockey. Nobody knew it beter. We think he was the founder of the tradition that has since grown up about Bowles' restaurant as a centre what has been called the Monday morning quarterbacks. Almost any morning about 1 or 2 Eddie could be found there surrounded by a group while he demonstrated with matches on a table or a pencil on a tablecloth how a certain play ought to have been worked out, or how it would be worked out next day. The youngsters hung on his words. Many of them, no doubt, felt that it was an honor to carry a hockey stick, like a torch, for Mr. Livingstone. He interested himself in their affairs. He got them jobs. He got them out of trouble. He gave them good advice which was not applicable to sports arenas only. When we would see him on the street, no matter at what time of the year, he would usually be accompanied, unless he walked alone, by two or three youngsters whose problems he had been considering, and who were hoping that when the time came to put on the football cleats or the hockey skates they would do something by way of acknowledg-

Ed. Livingstone became head of the Toronto Professional hockey team after Percy Quinn and Frank Robinson dropped out, and was in trouble almost from the beginning. In the end the league in which he held his franchise was dissolved, for no other reason than to get rid of Livingstone. He was denounced by his fellow-magnates-if that is the word-as being impossible to get along with. So far as we could understand the trouble, and in those days we were pretty close to it, the only problem Livingstone presented to the other club owners was the problem presented by a straight steel bar, which somebody wanted to turn into the form of a neat S with the aid of a pair of manicure scissors. Eddie Livingstone was the last fellow in the world with whom you could do that kind of business. We were at the meeting in Montreal in which the new league, minus Livingstone's Toronto club, was organized, and remember hearing the owners offer Percy Quinn the Quebec franchise for nothing, merely to ensure his co-operation and good-will. Percy refused. He was standing by Livingstone.

Later on Livingstone had a Chicago hockey franchise, and this wound up in litigation. One thing that alarmed his fellow club owners was his readiness to appeal to the courts for justice if he thought he was being denied it by the men in control of the sports business. No professional sports organization likes to have the law develop any curiosity about its doings. There is a general fear that some judge or lawyer might come to the conclusion that the Emancipation Act proclaimed by President Lincoln might be appropriately and damningly cited against the relations between owners and players. But all that Eddie Livingstone ever wanted out of a sports deal was fair play, and that is what essentially he failed to get for himself. He and Percy Quinn had a great deal to do with convincing Tex Rickard and the other American magnates that professional hockey would be a big money winner in the United States. So it proved to be, but when the big money came neither of them got a dollar of it.

## THE Electric METER Is for Your Protection

EVEN though your Hydro makes electricity available to you in Ontario at a very low cost, it is important that you pay only for the amount of power that you actually use. The electric meter on duty in your home, is your protection against paying for more than you consume.

Every one of some 800,000 meters in Ontario is tested and certified by a Dominion Government inspector at regular intervals to assure complete accuracy. Electric meters are among the finest of jewelled precision instruments . . . as constantly true as the finest watch.

For your protection, Hydro installs a separate meter, exclusively for your own household. Having a meter of your own is the only possible way to be sure that you only pay for the electricity which you use. Imagine buying food from a merchant who weighs several people's orders at the same time, and splits the cost evenly regardless of the size of the orders! You want your order weighed individually when you buy food. When you use electricity your meter assures accurate individual measurement.

Low cost Hydro service in Ontario offers amazing comforts and conveniences. For your protection . . : so that you will pay for only the amount of Hydro you actually use, a Government Inspected Meter is installed for your own household exclusively.

## Victory Loan Salesmen

Application may be made up to October 6th by anyone desirous of acting as a Salesman in

#### GRIMSBY AND NORTH **GRIMSBY**

during the Ninth Victory Loan, commencing Oct. 22. A salesman must be prepared to attend several meetings prior to October 22nd, and devote his full time to the sale of Victory Bonds during the three weeks campaign. This means he must give up his normal business entirely, and no exceptions will be made.

Before applying, be sure you have the necessary qualifications to be a successful salesman and are prepared to work eighteen full days selling Victory Bonds to the exclusion of everything else.

Salesmen on previous loans will not necessarily act on this loan, and those who do, may be assigned to a different district in their territory.

Wolfenden and Florence Brown. The taggers who worked so hard to raise the splendid amount of more than \$160.00 were Lois Ainslie, Eva Clement, Marion Honey, Jean Jarvis, Barbara Pope Joyce Tremain, Margaret Jorston, Martin Banks, John Gillespie, Tom Higgins, Kenneth Higson, Bryan Jones, Bob Kozowy, Martin Robertson, Ted Robertson, George

Stewart and Gerald Wolf. On Saturday, October 6th, The Junior Humane Society is holding its annual Pet Show in Montabella Park St. Catharines, at which time the draw for "Marbles" the lovely little dappled grey pony with his smart little trap and harness will be drawn for, and a cordial invitation to the children of Grimsby and district to attend the Pet Show is extended.

ONCE DREW RELIEF two had taken time out from the league game in which they had been engaged, in order to check up

on Oliver Watt's income tax.

Oliver had gone a long way. A home teacher from The Canadian National Institute for the Blind had taught him how to make use of his strong hands. She had tried to teach him Braille, but Oliver wasn't very good at that. He had learned how to make baskets and leather belts, but more inportant than anything else, he had discovered that it was possible for men handicapped like himself to work and earn and live.

The Canadian National Institute for the Blind brought him into the him in the income tax paying class turned him in fact from a liability into an asset, made a citizen o

Oliver Watt is not his name, but there is no fiction in the rest of the story. The story is typical of hundreds to be found on the files of The Canadian National Institute for the Blind. It is essential that the C.N.I.B. should be supplied with the funds with which to carry on its great work for it deals with the lives of Canadians. It is easy enough to raise the few dollars required to keep blind men and women in poor clothes, cheap boots and inadequate rooms, but it takes more money to give blind people a real chance, and it is that chance which the money which is now being sought in this community will provide. Every dollar subscribed to the Institute means an improvement in the living conditions and the mental and moral outlook of some blind person.

HAMILTON MARKET

Dr. J. E. Davey, M.O.H., said the ealth department had no knowledge of any regulation for this reason, adding that if such were the case all grades would have to be covered. It was the impression of the health department inspectors that the regulation was one insisted upon by the W.P. and T.B.

A. F. Smees, market manager. stated that the city by-law previously in force prohibiting the sale of covered fruit, could not be enforced in view of the ruling of Wartime Prices and Trade Board officials. Last year attempts had been made to enforce the sale of uncovered fruit, but the W.P.T.B. ordered them to be covered in ac-

cordance with its price regulations. Mr. Smees said to-day that he was receiving many complaints from purchasers that the No. 1 leno-covered peaches they had bought were wormy, green and unripe. He had a number of baskets brought to his office Saturday morning, which were turned over to Government inspectors.

Asked why pink or red leno was used, he could only smile as he observed that he had seen purple covers on purple fruit and green covers on green fruit, but never

on peaches. This is the question in many purchasers' minds as they ask: Why, if covers must be insisted upon on No. 1 grade peaches to get the top price, such covers could not be white or green and not such as to give the deceptive appear-

ance to fruit. Controller William Weir said he was refusing to buy covered peaches as there were so many which gave a false impression. It meant the seller was disposing of inferior fruit, oftentimes at a higher

A dispatch from Brantford states that city has a by-law which prohibits the covering of baskets with red leno. A ruling there required that sale of peaches in covered baskets is permitted only when the net was pulled halfway off when peaches were on display.

In the old days it was the gold rush. Now it's a rush to the butcher shop if it is rumored there is some meat there.
